

BSC-50-100 PP CONCENTRATE

This concentrate is suitable for tubing, profile, sheet, blow molding and injected molding applications. For best results, use in polypropylene injection molded parts or extruded polypropylene parts.

Key Properties: Versatile low cost concentrate. Dark mass tone and high tint strength, allowing lower use levels than many blacks.

Pigment loading	50%
Minimum melt flow	10 (10X @ 190c)
Base Resin	Polypropylene
Pellet Type	Underwater cut
Particle	65-75
